

My father Sheldon Lubow was a patient about thirty years ago. My father always felt a tremendous connection to Dr. Colvin for saving his life. My dad would send a note commemorating the anniversary of his by-pass every year until his death 5 years ago. Dr. Colvin just recently took care of my Uncle Stanley Lubow, my dad's younger brother. What a blessing he was in our lives, even though I never met him, I am deeply saddened by his passing.
